

# EXIGENT 42

## Protein preference

For fussy adult cats (1 to 10 years)

## Natural preference

To meet each and every cat's natural preference, even the fussiest, Royal Canin has developed 3 exclusive nutritional solutions for fussy cats:

**EXIGENT 42**  
Protein preference

**EXIGENT 35/30**  
Savour sensation

**EXIGENT 33**  
Aromatic attraction

Based on the latest science in palatability, they respond to each cat's individual preference. Each product has a specific and original sensorial orientation while respecting all palatability criteria.

Because the perception of palatability varies so widely in cats, let your cat decide!

## Protein preference

Post-ingestion perception is a distinguishing factor in dietary choice. Each cat interprets the sensations after digesting a food according to its individual preference.

**Protein preference**, with its specific protein, carbohydrate and fat ratio, is a complete nutritional response for fussy cats.

While its ratio of nutrients is what makes it stand out, **Protein preference** also meets all the other palatability criteria, with an aroma, flavour, texture and combination of balanced macronutrients, for a uniquely palatable response!

Helps maintain  
ideal weight

The special formulation helps maintain ideal weight with a moderate energy content.

Coat beauty

The complex of active nutrients, including biotin and borage oil (rich in omega 6), contributes to the coat beauty.

400g, 2kg, 4kg, 10kg

**ROYAL CANIN**  
FELINE HEALTH NUTRITION

## Recommended daily requirements

Cat weight (kg)	LEAN		NORMAL		OVERWEIGHT	
	(g/day)	cup*/day	(g/day)	cup*/day	(g/day)	cup*/day
2	40	3/8	30	2/8	–	–
3	60	5/8	45	4/8	–	–
4	80	6/8	65	5/8	45	4/8
5	100	1	80	6/8	60	5/8
6	115	1+1/8	95	1	70	6/8
7	–	–	110	1+1/8	80	6/8

\*1 cup = 240 ml  
1 cup ± 101 g (considering product density)

## Ingredients

Dehydrated poultry meat, maize, vegetable protein isolate\*, wheat, animal fats, maize gluten, hydrolysed animal proteins, vegetable fibres, beet pulp, minerals, soya oil, sodium phosphate, borage oil.

\*L.I.P.: protein selected for its very high assimilation.
